I am a passionate coder who enjoys writing clean code. I'd say that my main strength as a developer is my self-confidence when it comes to solving problems. In my solutions I always tend to simplicity, as well as creativity and uniqueness when it comes to creating client-side of applications.

## Education

- **Gymnasium Slobodan Škerović**
- **Electro-technical Faculty of Montenegro - Bachelor degree** in field of electronical engineering
- Currently finishing specialization (4th year) of the same faculty in the field of **Computer Science**.

## Hard Skills

I use **Visual Studio 2017** (or **VS Code**) and **MS SQL Server** for development.

## Experience

January 2019 **3G Proxy**, [www.3gproxy.com](http://www.3gproxy.com), [contact@3gproxy.com](mailto:contact@3gproxy.com)

Now

- Responsible for full stack development of **Dashboard** used by company's employees and their clients.
- Developed **Live Device Tracker** – Monitoring system that provides information regarding the status of more than 500 devices in 55 different countries that are owned by 3G Proxy.
- During this period I have also done a few private projects using the same technology.
